OBJECTIVE

A curious and dedicated MCA student with a genuine interest in building practical technology solutions and continuously expanding technical expertise. Seeking an opportunity to begin my career in the IT industry where I can transform academic knowledge into real-world impact, contribute to meaningful projects, collaborate with experienced professionals, and grow into a skilled software professional through continuous learning and innovation.

ACADEMIC PROJECTS

Surplus Food Management System – Ongoing
- **Technologies:** PHP, Laravel, MySQL, HTML, CSS, JavaScript
- Developing a platform that helps shops and organizations list surplus food at discounted prices, reducing food waste and making food more accessible to eligible recipients.
- Implementing food listings, donor registration, recipient requests, availability tracking, pickup coordination, and administrative monitoring.
- Designed the system to provide an organized platform for connecting food donors with eligible recipients and managing surplus food efficiently.

InSure – Mini Project
- **Technologies:** PHP, HTML, CSS, MySQL
- Developed a web-based unemployment insurance platform providing affordable, low-interest coverage for individuals who have lost their employment.
- Implemented user registration, policy enrollment, claim submission, claim validation, and administrator approval for streamlined policy and claim management.
- Designed a centralized workflow to simplify policy handling, claim processing, and administrative decision-making.

EverKind – Main Project
- **Technologies:** Python, Django, HTML, CSS, JavaScript, SQL
- Built an old-age-home management platform that enables families to securely admit elderly parents while supporting organized care and hospitality services.
- Implemented role-based dashboards, health records, medication schedules, care logs, reminders, and family updates for efficient resident care and communication.
- Designed the platform to improve coordination between residents, families, and care staff through centralized information and updates.

TECHNICAL SKILLS

Technical Skills: C, C++, Java, Python, PHP, HTML, Laravel, Django, MySQL, MS Office, Linux

CERTIFICATIONS

- **NPTEL Certification in Cloud Computing**
- **Introduction to Front End Development**
- **Professional Certification in Tally**
- **Master AI for Web App Development**
- **Programming with Python 3.X**

EDUCATION

Master of Computer Applications (MCA) — *AUG 2025 – MAR 2027*
Santhigiri College of Computer Sciences, Vazhithala, M.G. University, Kottayam — **CGPA: 8.24**

Bachelor of Computer Applications (BCA) — *SEP 2020 – MAR 2025*
Santhigiri College of Computer Sciences, Vazhithala, M.G. University, Kottayam — **CGPA: 7.03**

Higher Secondary Education — *JUN 2019 – MAR 2021*
St. Augustine's H.S.S, Karimkunnam — **84%**

SSLC — *JUN 2018 – MAR 2019*
Saraswathy Vidhya Bhavan Central School, Thodupuzha — **77%**

ACHIEVEMENTS & ACTIVITIES

- **Student Council Member**
- **Volunteer**
- **Event Coordinator**
- **Seminar Presenter**

ADDITIONAL INFORMATION

Experience	Office Assistant — Textile Retail Store; Tuition Teacher; Catering Team Member
Strengths	Problem Solving, Team Collaboration, Communication, Time Management, Adaptability
Languages	Malayalam, English
Interests	Pet Care, Reading Books
